The course provided opportunities to utilize various forms of technology (e.g. web sites, e-mail)					100%
The course modeled, provided information, or in some manner incorporated skills and processes of collaboration and teaming					100%
Information provided in the course reflected current recommended practices in the field of early childhood special education				25%	75%
The instructor utilized various teaching strategies to accommodate diverse learning styles (e.g. lecture, modeling, discussion, hands-on activities)				50%	50%
The instructor incorporated the essential contribution of families throughout the content of the course				25%	75%
Students were encouraged to collaborate with one another during and outside of the class session					100%
The instructor encouraged students to apply knowledge and skills to meet diverse populations					100%
Comments or Suggestions: <ul style="list-style-type: none"> • Sandy was very organized and informative. I learned a great deal from her. • I would change the name of the course name because I was not expecting to learn about this material • All this information was new because I never had a class that truly talked about 					

- collaboration or difficult teaming. I learned skills that were applicable.
- Sandy’s approach worked well. She incorporated many different techniques and encouraged us to think about the material.
 - I would change the way to do journaling (maybe on-line) because I would write about ideas but never had the time to revisit them because I never got to keep my journal
 - I would recommend taking this class! The book was informative and easy to read and so were the articles.

Kent State University Course Evaluations

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
